

Registering Summit Software in Windows 7

In order for software to be registered successfully in the Windows 7 environment it is necessary to turn off User Account Control.

To Do this please take the following steps:

1. Go to Start Menu -> Control Panel -> User Accounts and Family Safety -> User Account.
2. Click on User Account Control settings link.

Make changes to your user account

3. Slide the slider bar to the lowest value (towards Never Notify), with description showing Never notify me.

Choose when to be notified about changes to your computer

User Account Control helps prevent potentially harmful programs from making changes to your computer.
[Tell me more about User Account Control settings](#)

4. Click OK to make the change effective.
5. Restart the computer to turn off User [Access Control](#). NOTE: You may need to restart your computer more than once.
